

MCA-T hands over sites to contractors in Rukwa

The Millenium Challenge Corporation (MCC) is providing support for the project of upgrading to tarmac level the Tunduma -Sumbawanga road in Rukwa region. The project which covers 224.5 kilometres has been divided into three sections to expedite the process. These are Tunduma-Ikana (63.7km), Ikana-Laela (64.2 km) and Laela-Sumbawanga (96.5 km).

MCA-T handed over the Tunduma - Ikana (63.7km) and Ikana - Laela (64.2 km) roads to contractors from China and Greece. The ceremony to hand over the works to contractors took place at Chiwanda and Chenjele villages in Mbeya region on 15th October 2010. This follows the recent signing of works contracts to M/s China New Era International Engineering Corporation of People's Republic of China to upgrade Ikana - Laela roads (64.2km) and M/s Consolidated Contractors Group S.A (off-shore) (CCC) of Greece to upgrade Tunduma - Ikana section (63.7km) to tarmac level.
